## Default

*One Thing Remains*  
TVT RECORDS

We're pretty much reinventing ourselves as a band." That's a fairly heavy statement for any singer to make, especially someone like Default's Dallas Smith, who fronts a relatively young band with a million-plus in record sales, several massive rock radio hits ("Wasting My Time", "Deny", "Taking My Life Away"), a bunch of late-night-TV show appearances and more

than a few sold-out tours with some of the biggest alt- and active rock groups in the country under its belt. But Smith knew that something needed to change before the group started work on its third record, *One Thing Remains*. [www.defaultonline.com](http://www.defaultonline.com)
